EDUCATION

M.S. Social Data Analytics and Research
University of Texas, Dallas
Jan 2024 (fast track) -Aug 2026 (anticipated)
School of Economic, Political, and Policy Sciences

Graduate Certificate in Program Evaluation
University of Texas, Dallas
Jan 2024 (fast track) -Aug 2026 (anticipated)
School of Economic, Political, and Policy Sciences

B.S. Psychology
University of Texas, Dallas
Aug 2021- Aug 2024
School of Behavioral and Brain Sciences
GPA: 3.81, Dean's list

Associates of Science
Dallas College
Graduated Fall 2021
GPA: 4.0

CERTIFICATIONS

- Human Subjects Research
CITI Program
- Level 1 Sommelier
Court of Master Sommeliers

RESEARCH EXPERIENCE

Culturally Responsive Research in Developmental Science
National Science Foundation Research Experience for Undergraduates (NSF REU) Aug 2023–Aug 2024
Participated in a 42-week NSF REU through the Center for Children and Families at UT Dallas. Worked with a diverse cohort of 10 students to conduct research designed to decrease bias within the field of developmental science.

Research Assistant to Dr. Margret Tresch Owen
UTD Children and Families lab Jan 2024–Aug 2024
Contributed to the Playful Learning Project, focusing on evaluating the efficacy of the Play With Me (Juega Conmigo) program, tailored to Spanish-speaking families and their young children. Assisted in investigating the impact of the program on parenting behaviors, parent-child engagement, and children's school readiness.

Research Assistant to Dr. Noah Sasson
UTD Social Cognition and Interaction in Autism Lab Jan 2023–Jan 2024
Collaborated with a team to reliably code dyadic and group interactions between neurotypes. Measured the efficacy of communication between autistic and non-autistic adults within a neurodiversity framework, replicating prior work supporting the “Double-Empathy Theory”.

PROJECTS AND POSTERS

Data Informed Community Engagement Initiative (DICE) Report
Child Poverty Action Lab (CPAL)
In coordination with the Dallas Office of Integrated Public Safety Solutions, CPAL is leading blight remediation efforts to decrease rates of violent crime in high-risk areas. Created and designed an automatically updating reporting tool tracking these efforts using the R programming language and Quarto software.

Mixed Methods Evaluation of a Parenting Program Exploring the Strength and Source of Potential Growth in Positive Parenting Skills
UTD Center for Children and Families NSF REU Presented at 2024 SPUR Awards
Evaluated impact of the “Play with Me/Juega Conmigo” program by examining changes in Positive Parenting behaviors (proactive parenting and positive reinforcement). Conducted thematic analysis on survey responses analyzing what parents gained from the program.

The Cost of Success: How Parental Pressure Leads to Anxiety, Self-Handicapping, and Worsened Academic Performance in Students
PSY 3393, Experimental Projects
Acted as the Principal Investigator for a small experimental study, coordinating a team of students. Utilized multiple psychometric questionnaires, conducted correlational analysis and reported findings in an APA style research paper.
